

الغرابلي للأعمال الهندسية المتكاملة ش.م.م.
Gharably Integrated Engineering Co. S.A.E.

GHARABLY INTEGRATED
ENGINEERING COMPANY

You
Imagine,
We Build.

Who we are

The roots originated in 1912 and Since 1948, The company has begun the activities in the field of general contracting/construction contractor and has great experience in Turn-Key Projects, serving the Engineering, Procurement, and Construction fields where we have been working hard and deliberately for more than 70 years.

GIECO has been a leader through the years in the fabrication, welding, testing, and erection of metal plate structures and related systems.

A portrait of Mr. Ibrahim El Gharably, an elderly man with white hair, wearing a dark suit, white shirt, and a patterned tie. He is seated at a table, looking slightly to his right. The background features a brick fireplace mantel with a dark sculpture on top.

Mr Ibrahim El Gharably

Today in both the private and public sector, Gharably Group (GG) plays a massive role in the national economy.

GG is the holding company for:

- Gharably Integrated Engineering Company (GIECO)
- Gharably Engineering Company (GECO)
- Gharably for Trade and Marketing Company (GTMCO)
- Gharably for Livestock&Agriculture Development Company (GLADCO)

Both GIECO and GECO, as EPC Contractors, have their construction projects all around Egypt with a massive turn-over in 2018 of about one billion US dollars, and all the thanks go to God and our esteemed clients.

Our expertise ranges from engineering to architecture and from design to planning and project management.

Having great experience in turn-key projects, we serve in the procurement, engineering, and construction fields, where we have been working hard and carefully for more than 70 years.

Moreover, we have our steel workshops in Alexandria for a monthly product that exceeds 1000 Ton per month and more depending on the type of steel.

Eng. Moatasem El Gharably

I would like to thank all our team of directors and employees, who work hard to uphold the reputation of our esteemed company, which is positively reflected in the achievement of our goals in spite of the confronted challenges, in the past years, and succeeded to win the execution of mega projects. Due to the faithful efforts and persistence of our team, GIECO has succeeded to gain the appreciation of our clients, and won several projects bids in addition to Work Authorizations.

The commitment with the international standards of quality, environment, health and safety is on the top of our priorities.

GIECO reinforces its efforts to communicate with Foreign Investors and Egyptian Clients to strengthen mutual cooperation through taking part in executing engineering and construction projects.

GIECO team are the main factor of boosting GIECO's business and are responsible for upgrading the work performance of the company up to the international levels.

This target is fulfilled through permanent training of manpower on the local and international levels.

I extend my thanks, appreciation and gratitude to our clients /suppliers inside/and aboard Egypt for their trust, which will remain an incentive to exercise more efforts to maintain their trust and their continuous support.

GENUINENESS RECORD
